PAYS ALL QUESTIONS BY GRADE REPORT

This report provides full results from the 2021 Pennsylvania Youth Survey (PAYS). For each survey item included in the survey, this report presents data for each response option by grade (and for all grades combined).

This report allows you to see not only the percent of students who selected each response option but also the number of students. These counts allow for you to, for example, add the counts for 10th and 12th grade to calculate a percentage for high school students. PAYS sponsors — the Pennsylvania Commission on Crime and Delinquency, Department of Drug and Alcohol Programs, and the Pennsylvania Department of Education — are supplying these data with the hope of aiding in more complete prevention and wellness planning.

Notes to Consider Before Proceeding

This report shares data from the 2017, 2019, and 2021 PAYS administrations when data are available. If your county or district did not participate in one or more of these administrations, you will find “n/a” notations where relevant. Your full profile report also displays data from 2017, 2019, and 2021 when available.

Studies indicate that most young people are truthful in answering anonymous prevention-centered surveys such as

PAYS. To ensure valid survey results, the data here have made use of the same validity/honesty checks used in PAYS profile reports.

Data are displayed here when there are a minimum number of 25 responses at the grade level.

An overwhelming majority of these data focus on ALL students. There is only ONE instance in which the data here are reported of a subgroup of respondents — for the “Remote Learning Perceptions and Experiences” section. These remote learning items were only asked of students who indicated some form of remote learning during the COVID-19 pandemic.

If you need help reading, interpreting, or applying these data, please contact your local county drug and alcohol office or reach out to the Evidence-based Prevention and Intervention Support (EPIS) Center at:

If you drank alcohol during the past 12 months, how did you usually get it? (Please note the data reported here are of ALL students, including non-users. Profile reports produced for PAYS report these data only of past-year users. Because these data are of ALL students, the numbers and percentages here will not align with the data presented in your profile report. In 2021, this question involved skip logic, and students reporting that they had not used alcohol in their lifetime were not shown this question. In the data, those not using in their lifetime were recoded as "Did not drink any alcohol" for this item.) If you have been bullied in the past 12 months by other students, why were you bullied? (Please note the data reported here are of ALL students. Profile reports produced for PAYS report these data only of students who reported being bullied in the past year. Because these data are of ALL students, the numbers and percentages here will not align with the data presented in your profile report. Further note that in the 2021 PAYS, if a student marked that they had not been bullied in the past year to the question Please state whether you have been bullied during the past 12 months they were coded as I have not been made fun of by other students for this question.)
