Six Years AND COUNTING

More than **540** counties across **45** states have joined Stepping Up to reduce the prevalence of mental illness in jails.

48%

of Americans live in a Stepping Up county.

Approximately **2 million** times each year, people who have serious mental illnesses are booked in jails.

30+ Innovator Counties are blazing the trail in data collection.

5 states have launched statewide Stepping Up initiatives.

THE STEPPINGUP INITIATIVE

- Calls for a paradigm shift:
 - Move beyond programs and pilots to scaled impact and measurable reductions in the prevalence of mental illness
- No-nonsense, data-driven public management:
 - Systematic identification of mental illness in jails
 - Quantification of the problem
 - Scaled implementation of strategies shown to produce results
 - Tracking progress and adjusting efforts based on a core set of outcomes

Reducing the Number of People with Mental Illnesses in Jail

Six Questions County Leaders Need to Ask

Risë Haneberg, Dr. Tony Fabelo, Dr. Fred Osher, and Michael Thompson

1

Is our leadership committed?

2

Do we conduct timely screening and assessments?

3

Do we have baseline data?

4

Have we conducted a comprehensive process analysis and inventory of services?

5

Have we prioritized policy, practice, and funding improvements?

6

Do we track progress?

THE
STEPPINGUP
INITIATIVE

1. Reduce the number of people with mental illnesses booked into jails

2. Shorten the length of stay in jails for people who have mental illnesses

3. Increase connection to treatment for people who have mental illnesses

4. Reduce recidivism rates for people who have mental illnesses

Prioritizing System Improvements

1.

Jail Bookings

- Police-Mental Health Collaboration programs
- CIT training
- Co-responder model
- Crisis diversion centers
- Policing of quality-of-life offenses

2.

Jail Length of Stay

- Routine screening and assessment for mental health and SUDs in jail
- Pretrial mental health diversion
- Pretrial risk screening, release, and supervision
- Bail policy reform

3.

Connection to Treatment

- Expand community-based treatment and housing options
- Streamline access to services
- Leverage Medicaid and other federal, state, and local resources

4.

Recidivism

- Apply Risk-Need-Responsivity principle
- Use evidence-based practices
- Apply the Behavioral Health Framework
- Specialized probation
- Ongoing program evaluation

Getting (Re)started with Stepping Up

- Has our county passed a Stepping Up resolution?
- Is there a representative planning team that is focused on criminal justice and behavioral health? Is there already a criminal justice coordinating committee (CJCC) or other body that can advance this work?
- Is there a local champion for work that addresses behavioral health in the justice system?
- Have we connected the dots between multiple initiatives in the county that address behavioral health in the justice system?
- Is there a standard definition of serious mental illness (SMI) shared among criminal justice and behavioral health agencies?
- Do we have baseline data on SMI prevalence in the jail? Do we have data from law enforcement on mental health encounters?
- Is there a lead state agency that supports county initiatives to address SMI?
